

The Advanced Management Programme for Infrastructure (AMPI)

**STUDENT
PROFILE
CLASS OF
2025**

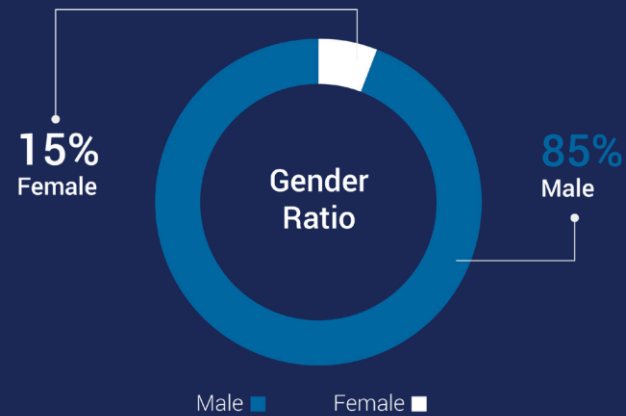

Advanced Management Programme for Infrastructure has been conceived against the backdrop of scarcity of systematically trained and developed leadership capital in the area of infrastructure in India and other emerging markets. The one year programme caters to mid-career professionals and provides a structured approach of developing infrastructure leaders using an interdisciplinary environment of learning. The specialized management programme uses blended approach of delivery-a good mix of classroom delivery and delivery using online platform. This helps participants minimize disruption at work and personal pursuits.

ABOUT AMPI

In India, the infrastructure and real estate sectors are fundamental to the nation's growth, driving economic development and improving the quality of life for its citizens. These sectors catalyze urbanization and support India's expanding economy, facilitating efficient transport, reliable energy, and sustainable urban development. The Advanced Management Programme for Infrastructure at the Indian School of Business (ISB) is strategically designed to address these sectors' unique challenges and opportunities. Participants gain in-depth knowledge and management skills crucial for leading complex projects and innovations in infrastructure and real estate. This education is vital for personal career advancement and instrumental in propelling India towards sustainable growth and enhanced global competitiveness.

AMPI CLASS OF 2025
